**Mike Johnson**  
Director of Radio station  
Longview, TX

Dear Mike,

I am interested in being your Radio station because, I love technology and my dad has a Radio station of his own. I love working with my dad. He has taught me a lot of things about technology, I know that it can be a real pain in the back. I saw you talk at Feed and Seed, I heard you worked at a Radio Station it hit a fire in my interest.

I do have technology experience, I have been on my Dad's radio station. He has given me the opportunity to control the lights at a small concert. I run the soundboard at my church sometimes, that's if my brother is at work. Most people say I would be great in the Radio field. I have taken a class over Radio technology and I really liked it. I would be willing to join your station, I would help anyway I would.

I would love to work with you, I can be contacted from the listings above, I am available on weekdays from 3:30pm - 10:00pm. Please contact me for an interview, if that number does not work call my mom 903-235-8766. Thanks Mike for your time and I hope you see a need to employ me

sincerely,

-Alex Gailor
